

## SDC Mobile: on-the-go access to plan information

The SDC Mobile app gives members quick access to their SDC plan information, Find-A-Dentist search tool, Mobile ID card and more.

### Features of SDC Mobile:

- View **plan details** and download schedule of benefits
- Access your **Mobile ID card**, print it to a wireless printer or save it to the app home screen
- View plan enrollment and each member's contract maximum and deductible balance from the **roster**
- Review **claims** and download the explanation of benefits (EOB) for each
- Access SDC's **Find-A-Dentist** to search for a participating dentist by current location, city, county, zip code, specialty, or last name
- **Online chat** with our member services team

SDC is dedicated to security. The SDC Mobile app uses industry best practices to ensure benefit information remains private. Members currently enrolled in an SDC plan can log in with their existing Superior Direct Connect account or sign up for a new account through the app. For added security, SDC Mobile requires users to log in again after a period of inactivity.

SDC Mobile for iPhone, iPad and iPod touch is available on the App Store. Get SDC Mobile for Android™ devices on Google Play™. Simply search for "Superior Dental Care Mobile" and download to your device!
